

## 2019 Aerospace Public Training Course Schedule

**“Internal Auditor”** - An eye opening and inspiring “how to” Internal Auditor Course that includes an overview of the AS9100 Rev D Standard - Audit Tools and Techniques, and an easy to understand "Process Based Approach". Informative and entertaining Case Studies with Interactive exercises, all easy to follow and based on the latest requirements. **Demonstrate Auditor Qualification to your Registrar (CB)** - 2 day course

**“Quality Management Boot Camp”** – Quality Control, Quality Assurance, Quality Management, Quality System Management – this course covers it all! For Quality Professionals requiring some refresher training, an aspiring Quality Manager / Supervisor, OR for the Organization’s New Quality Manager that needs to hit the floor running - ready to inspect; ready to organize; ready to manage measuring equipment; ready to present; ready to interact with customers, suppliers & the registrar; ready to manage audits; ready to represent your Quality Management System; ready to document corrective & preventive action; and ready to develop needed documents. Our version of Quality Management 101 - course includes essential tools, templates, techniques, & vital information for every successful Quality Professional - 3 day course

**“Root Cause / Corrective Action” (RCCA)** – Corrective action responses continually being rejected and / or with ineffective results? This course contains successful tools and techniques for disciplined problem solving, process analysis, team building, effective corrective action, and cause/effect. Learn how to link the process approach, interaction of processes, as well as development of documented information. This course integrates enlightening exercises and factual case studies to allow for use of the various tools - 1 day course for those involved with Internal Audits, Supplier Audits, Customer, and 3<sup>rd</sup> party audits. 1 day course
